## What is an ICO?

An Initial Coin Offering, also commonly referred to as an ICO, is a fundraising mechanism in which new projects sell their underlying crypto tokens in exchange for bitcoin and ether. It's somewhat similar to an Initial Public Offering IPO in which investors purchase shares of a company.

ICOs are a relatively new phenomenon but have quickly become a dominant topic of discussion within the block chain community. Many view ICO projects as unregulated securities that allow founders to raise an unjustified amount of capital, while others argue it is an innovation in the traditional venture-funding model

## Artificial Intelligence

The branch of computer science that emphasizes on creating intelligent machines that work and react like humans is known as Artificial Intelligence. Artificial intelligence also known as machine learning, includes programming computers for traits like Speech Recognition, Learning, Planning, Problem solving, Knowledge, Reasoning, Perception, Ability to manipulate and move objects etc.

Machines may replace your job in future. We are feeling the pressure of automation for a long time. The smarter software can tackle and solve hard problems quickly. This might endanger the jobs of white and blue collar workers. There are chances of some jobs getting partially or entirely automated in coming decades

## Deep Learning

Deep learning (also known as deep structured learning or hierarchical learning) is part of a broader family of machine learning methods based on learning data representations as opposed to task-specific algorithms.

Learning can be supervised, Semi-supervised or unsupervised

Deep learning models are loosely related to information processing and communication patterns in a biological nervous system, such as neural coding that attempts to define a relationship between various stimuli and associated neuronal responses in the brain

## About OFNOG

OFNOG Ltd.is an IT organization registered with London, UK formed by a team of seasoned IT professionals from fortune 500 organizations like IBM, HP, HPE, AT&T background. We have a strong background of IT product development, solutions for decades.

## OFNOG ICO

OFNOG is a unique crypto trading solution designed with the power of Artificial Intelligence and Deep learning technology. OFNOG solution will enable traders to trade more effectively and accurately due to the deep learning methodology and accurate development of Artificial Intelligence.

## Problem Statement

As of Feb 2018, Bitcoin alone has a market capitalization of over \$19billion USD, and more than 1,000 digital coins are being traded on the cryptocurrency markets. As opposed to the traditional stock market, these global exchange markets work 24x7x365 and even experienced users cannot identify them all, nor is it possible to track every opportunity without some sort of tool to help them. Some Artificial Intelligence based solution are available in the market, however the accuracy and customization still needs huge improvement.

## Solution

Our solution will be based on Deep learning and Artificial Intelligence .Our expert AI research team will analysis the data of 'efficient traders' buy sale call, crypto exchanges trend analysis, time based behavioral logic of cryptocurrencies. Once the deep learning is done, we will create AI based solution. Once solution will be ready we will test the beta version in different popular decentralized exchanges and finally after all error removal solution will go live.

## Why OFNOG

Promoted by seasoned IT professionals from fortune 500 organizations like IBM, HPE, and Accenture. Cost-effective solution for crypto trading Low token price (Expected price is \$.10), high possibility and scope of increase of token price post ICO completion.

### Token Sale detail

Start: April 15, 2018 (Pre ICO)  
 Hard cap: 500 million OFNOG  
 Exchange rate: 1 OFNOG = .10USD

The exact number of tokens generated depends on the amount of funds contributed. No token creation, minting or mining after the end of the Token Sale period. Tokens will be transferable once the Token Sale is completed.

### OFNOG Team

OFNOG has a great team, with years of experience in fortune 500 companies

Gurdev Singh, CSO

[Manoj Deb, Founder and CEO](#)
